

SUGARCANE PLATES

PUT WASTE TO WORK

PRODUCTS®

from Detpak

There's purpose in these plates

Here's some food for thought: traditional plastic plates and are made from oil and usually end up in landfill. **Sugarcane Plates** from Eco-Products are not only strong, grease and cut resistant alternatives to plastic or polystyrene, they're also certified both commercially and home compostable and made from a reclaimed and rapidly renewable material. Chew on that!
