

South Australia, we've got you covered.

On 1 March 2021, SA banned single-use plastic straws, cutlery and beverage stirrers – including bioplastic alternatives.

Now, Stage Two regulations are rolling out.

From 1 March 2022, selected expanded polystyrene (EPS) and oxo-degradable plastic packaging will be banned statewide.

This includes items like EPS clams, plates, cups and bowls, and oxo-degradable plastic bags.

Rest assured, Detpak has you covered with our extensive range of compliant packaging solutions.

Our commitment to innovation and sustainability means that our solutions are not only suitable for today, but also for tomorrow.

We make responsible choices, to make your choice easy.

For further information about the bans, visit detspak.com/sa

Detpak

Choose sustainable.

Discover your compliant alternatives to EPS, and oxo-degradable plastic items.

Meet our Endura Range

Our Endura Range offers a fibre-based, recyclable and compostable, alternative to EPS clams and plates.

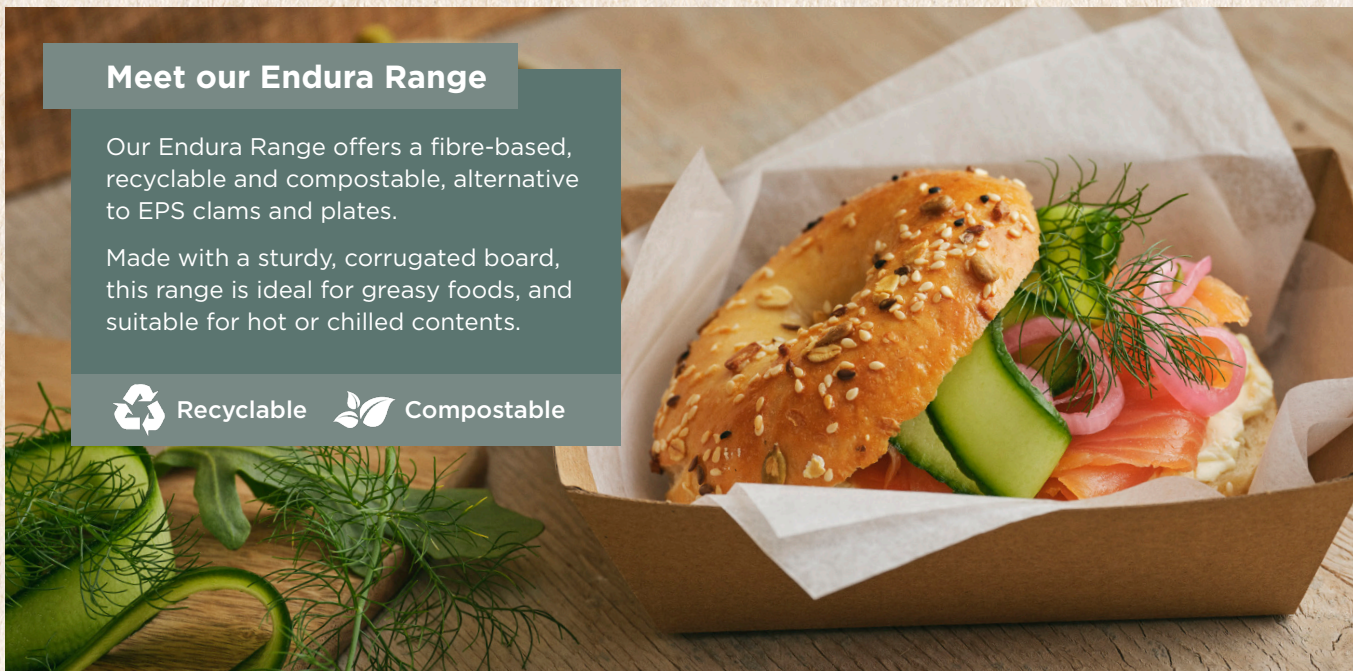

Made with a sturdy, corrugated board, this range is ideal for greasy foods, and suitable for hot or chilled contents.

Recyclable

Compostable

Meet our Eco-Products® Sugarcane Range

Made from a renewable resource, our Eco-Products® Sugarcane Range offers an alternative to EPS items.

Able to handle liquid and oil, and microwave, oven, fridge and freezer safe, this range is both home compostable and commercially compostable.

** Ovenable for 20 minutes at 220°C - test for suitability in own conditions*

Compostable
