OUR INNOVATION IS YOUR COMPETITIVE EDGE.

Behind every customised Detpak bag is almost 70 years of manufacturing history, the expert advice that comes with it, and game-changing innovation.

Rated by global brands as 'world class' for its creativity, technical knowledge and quality service; LaunchPad is Detpak's very own centre for research, packaging design and development, concept creation, and rapid prototyping. The competitive edge you've been searching for in a fast moving market.

STRONG BAGS. STRONGER BRANDS.

Engineered with high quality Kraft paper, one of the strongest papers in the world, and industrial strength glue to withstand up to 14kg of weight; our supremely durable bags will protect your products and your brand.

SUSTAINABILITY IN EVERY BAG.

Our commitment to the environment lives in every bag we make. We use sustainably and ethically sourced paper and board, and regularly audit suppliers for evidence of sustainability. And it's why our manufacturing arm, Detmold Packaging, has received Forest Stewardship Council (FSC) and Programme for the Endorsement of Forest Certification (PEFC) in all of our manufacturing plants around the world.

COMMITTED TO QUALITY.

Behind our wholly owned and operated manufacturing plants – each awarded with ISO 9001 accreditation for quality consistency – are the dedicated people that drive our unshakeable commitment to quality, service and efficiency.
