MAKE THE MOVE TO PAPER

100% recyclable

Bags of strength

Fully compostable

Detpak

Made from renewable resources

Global Action on Plastic Bag Bans

Globally, 5 billion single-use plastic bags are used every year. The majority of these end up in landfill, and a significant number end up in the environment.

- 127 nations now regulate against plastic bags at some level
- Policies to phase out plastic bags has tripled in last 10 years

As ban action requires for businesses to look for alternatives to plastic, there is no better time to make the move to paper.

Bags of Benefits from Detpak

Paper bags are the responsible alternative to single-use plastic bags. Made from quality raw material that is sustainably sourced and renewable, paper bags offer equal or better strength than plastic equivalents and they are compliant with ban legislation.

Trust from Big Brands

The world's most recognised brands choose to work with us.

Superior Strength

Made from high quality kraft paper, our bags hold up to 16kgs.

A Range of Choice

Size and material options for a variety of functionality requirements.

Sustainable

Made from a renewable resource, paper bags are reusable, recyclable and compostable - the sustainable substitute to plastic bags.

Food Safe

Manufacturing environments that hold globally recognised standards.

Made by Us

As the manufacturer, we take pride in quality design as well as efficient supply.

Make the Move to Paper

Our paper alternatives are available across a range of industries and uses. Other bag types are available. Contact us for more information.
