

Cut the Rubbish with RecycleMe™

RecycleMe™ is a takeaway cup with a next generation lining, supported by an award winning collection network, ensuring cups collected will be diverted from landfill and are guaranteed to be recycled.

RecycleMe™ Collection System endorsed by Planet Ark

Only RecycleMe™ cups with the blue logo on the bottom should be placed in the Collection Station.

Look for the logo on the bottom of the cup.

The specially designed Collection Station enables easy separation of liquid, cup and lid, as shown below.
